We sell more and more of that wonderful mixture. All colors and types of glads in assorted blooming sizes for a longer period of bloom: 50 bulbs for \$1.25; 100 bulbs for \$2.00.

Visitors

welcome —

THERE always is something of interest in our gardens. Beginning in February with the Dwarf Iris, then Scilla, Muscari and other early bulbs; March brings Daffodils in Variety; April comes with the Dutch Iris, Hemerocallis, intermediate Bearded Iris, etc.

But the peak of the bloom comes with the tall Bearded Iris, generally from April 15th to May 8th; Gladiolus should start blooming the latter part of May, all through June and somewhat later.

If you live within driving distance of Orland and are a flower lover, we want you to come and see the flowers as often as you like. Kingsley's Gladiolus and Iris Garden is the only place of its kind in the Sacramento Valley.

To reach our place, when in Orland, take Walker Street and drive to the western end of the street, and one block south. You cannot miss the CHANTICLEER on our water tower.

Orland (Glenn County) is situated on the Pacific Highway, U. S. 99-W, and easily accessible from everywhere.

If you are not interested in this descriptive list do not destroy it, but hand it to a friend who loves flowers.
